ABOUT ME

Full-Stack Developer with a french aerospace engineering degree, I currently participate in the creation of a web application aimed at optimizing the maintenance of military vehicles at Sopra Steria

WORK EXPERIENCE

Web Application Engineer 2021 - Today
Sopra Steria, Rennes France

- Used Angular and Spring to enhance a military vehicle maintenance web application
- Implemented Talend Open Studio to efficiently gather data from a multitude of file formats (Excel, XML, JSON...) and integrated it seamlessly into databases via REST APIs

Full-Stack Developer 2021 - Today
Rennes France

- Elaborated various web applications on my free time (Portfolio, Dating, 3D file sharing, Gaming, Dashboard...)

Aerothermal Engineer Internship 2020
Safran Aircraft Engines, Villaroche France

- CFD modeling (1D, 2D and 3D) of high pressure turbine cavities to minimize flow temperature increase

SKILLS

Angular & Spring Boot
